NOELLE THE ELF

Submit via Eco Cast Invitation Link

Scene Description: Alongside Santa and Mrs. Claus, she's on a mission to make Canadians more comfortable—spotting the little things around the home that could use an upgrade and enthusiastically pointing people toward a more comfortable solution.

Character Notes: Playful, energetic and youthful. Noelle brings a spark of mischief to the North Pole. High-energy, quick, charming, and expressive without becoming cartoonish or overly theatrical. A fresh energy that compliments Santa's more traditional personality.

Note: *You don't have to purchase a costume for this self tape. If you have red or green to wear, we encourage you to wear them, if you don't have either, that's ok too!*

SLATE: First and last name. City. HEIGHT.

SCENE 1

You watch Santa lift a spoonful of melted ice cream and watch it drip sadly back into the carton. You say the following:

NOELLE: Melted ice cream at the North Pole? That's uncomfortable.

We hear a magical chime as upbeat Christmas music kicks in. We cut to reveal the old icebox replaced by a brand-new stainless steel fridge.

Santa opens the freezer to reveal it neatly stocked with cartons of ice cream. NOELLE leans in approvingly. You say the following:

NOELLE: It's a winter wonderland in there!

SCENE 2

A continuation from the previous scene. We cut to you and Santa surrounded by ice cream containers. You look like you both have tummy aches!
