

PROJECT GAMBLING APP

DANNY

Submit via Eco Cast Invitation Link

MUST BE 25 YEARS OF AGE OR ABOVE TO SUBMIT

NOTE:

Character goes through an internal debate and plays multiple versions of himself in a gambling app!

Please do all scenes.

Talent must have a wide character range. Ability to perform comedy and quiet naturalism.

SLATE:

First and last name. City.

REAL WORLD DANNY

You should feel completely believable as a normal guy watching sports with a friend. No sports-bro energy. Grounded, casual, observant.

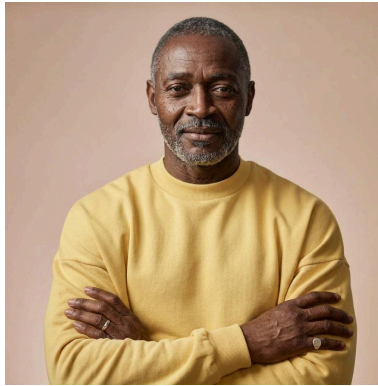

SCENE

You're sitting on a couch watching a game with your friend. You're casually watching the game's action while keeping an eye on a live bet on your phone.

You debate whether or not you should cash out or stay in. Externally, you stay reserved and calm. You feel assured and confident.

After a beat, you say the following as **REAL WORLD DANNY**: "*Staying in*".

OLD HEAD DANNY

Old Head Danny is the cautious voice in Danny's head. You have the energy of someone who has grown mature wisdom and knows when to take the win. You don't panic or argue. Self-assured.

SCENE

You gesture to the 'Cash Out' button and say as **OLD HEAD DANNY**: *"Time to cash out, kid!"*

ULTIMATE FAN DANNY

Ultimate fan Danny does not care what the cautious voice is saying. Pure emotional investment. You're dressed in fan gear. You passionately believe in your team. While this is a big and emotional character, remember to still include aspects of the real Danny in this performance.

SCENE

You throw yourself over the 'Cash Out' button to stop anyone from touching it.

You say the following as **ULTIMATE FAN DANNY**: *"Don't touch it! You've got this."*

Continued on the next page...

NONCHALANT DANNY

The complete opposite of Ultimate Fan Danny. Barely paying attention. You're dressed in a bathrobe and have a hotdog in hand.

SCENE

While the other Danny's are arguing, you take another bite of your hot dog.

You say the following as **NONCHALANT DANNY**: "*Guys, relax.*"
