SLATE:

First and last name. City.

SCENE 1:

You're preparing dinner. Determined and with skill, you carve a turkey almost like a sports athlete. You finish and admire your work with pride.

SCENE 2:

You've finished preparing all the food for dinner. All that's left is to set the table. You walk out the kitchen with a plate of food in an epic superhero-esque way. Maneuvering your way through, you lift the plate of food over your head and plant it proudly on the dinner table in a heroic manner.
